

Compliance Services

Your partner of choice for a compliant mass spectrometry lab

The Power of Precision

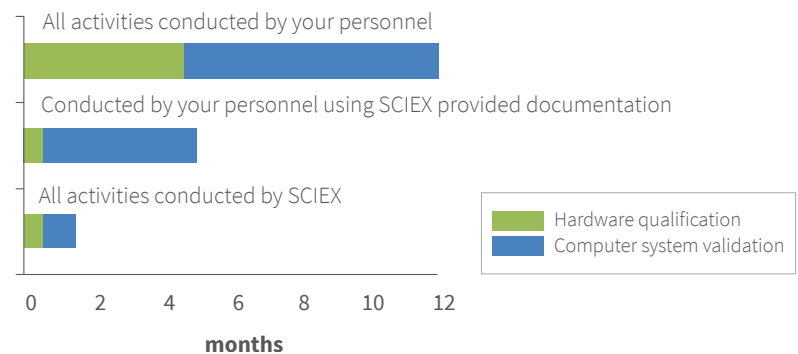

Because your success is our success

Achieving compliance in a regulated analytical laboratory is a complex, time-consuming and costly journey that takes you away from the day-to-day operations of your lab. SCIEX offers compliance solutions that help ensure your lab produces quality data without delaying your projects. From start to finish our team of compliance experts will guide you through the complete process.

SCIEX Compliance Services will provide you with a cost-effective, straightforward, compliance solution that demonstrates your mass spectrometry systems deliver accurate results and high-quality data and will help ensure the integrity of your data.

Compliance project timelines

Benefits of integrated compliance services

for your mass spectrometry lab

Simplicity

- Facilitated and streamlined communication with your dedicated SCIEX experts
- Integrated test and validation plans
- Harmonized documentation in style, content and purpose

Reliability

- Proven, audit tested, industry accepted software validation and instrument qualification protocols
- Industry standard GAMP 5 risk-based approach that is V-model compatible

Cost control

- Achieve compliance at a fixed, predicted cost
- Minimize instrument downtime by achieving compliance faster

Speed

- Straight to the point. No need for you to create new validation tests and documents
- Communicate with a single vendor for your complete system
- Compliance expertise to get you up and running quickly

Peace of mind

- Proven record of over 10,000 qualifications and 1,000 validations successfully delivered
- Guarantee – if auditors find any deficiency with the SCIEX compliance services, SCIEX will address the issue, at no cost to you
