

## Consumables for 4 day introduction to Triple Quad virtual

SCIEX training courses follow the proven spaced learning approach to maximize learning retention. The training process includes a blend of instructor-led training, hands-on exercises and self-paced eLearning, provided in a virtual format. This training course is an introductory mass spectrometry class designed for new users who are working on small molecule quantitation through MRM or Scheduled MRM acquisition using all SCIEX triple quadrupole systems.

The following consumables may be required at your own site during or after the training course to perform any lab exercises demonstrated during the training course.
