

Consumables for 3 day introduction to the X500R QTOF system at **SCIEX**

SCIEX training courses follow the proven spaced learning approach to maximize learning retention. The training process includes a blend of instructor-led training, hands-on exercises and self-paced eLearning provided at a SCIEX location. This course is an introductory course designed to provide new users with an overview of the main quantitative and qualitative workflows for small molecule analysis on the X500R QTOF system.

The following consumables may be required at your own site after the training course to perform any lab exercises demonstrated during the training course.
